## **Announcing Daughter In The Box for the iPhone and iPod**

Cluj Napoca, Romania, European Union, June 24, 2009

**exosyphen studios**, a game development studio with a long standing experience and reputation, is pleased to announce a unique and challenging game for the iPhone and iPod .

A young and innocent girl is trapped inside a building and you have to help her reach the exit. Daughter In The Box is a famous oriental puzzle, in which you have to slide tiles of various sizes made from wood, in order to bring the largest tile (The daughter) to the exit. The game quickly becomes challenging and addictive as you will have to try and solve the puzzle with a minimum number of moves.

The game features beautiful oriental graphics with falling and fading lotus petals and a very relaxing and calming oriental soundtrack. The game is ideal if you are looking for a nice challenge accompanied by a relaxing game environment.

### **Daughter In The Box Pricing and Availability**

**Daughter In The Box** is available for \$0.99 in the Apple App Store. The game can be played on any iPhone or iPod device.

### **About exosyphen studios**

exosyphen studios was founded in 2003 and focuses primarily on game development, established in Romania (inside the European Union), author of several successful games and software titles.
